Please note: this plan has been created in line with the latest government advice regarding contingency planning as set out in the DfE's '[Contingency framework: education and childcare settings](#)' and '[Schools COVID-19 operational guidance](#)' documents. The government has made it a national priority that education and childcare settings should continue to stay open as much as possible during the coronavirus (COVID-19) pandemic. Any restrictions on education would only be as a last resort and should only be initiated following a ministerial decision on a case-by-case basis.

We have confirmed with the DfE that the 'outbreak management plan' that schools should have in place, according to DfE guidance, is the same as the contingency plan. We have used the phrase 'contingency plan' throughout.

The aim of this plan

If our school or local area sees an extremely high prevalence of coronavirus (COVID-19) infection rates and existing measures in our community have failed to reduce this, the appropriate authorities will decide which additional measures to implement to help contain the spread. These measures may involve implementing a number of restrictions, which could include the partial closure of schools and childcare settings in our area. Measures may also be necessary to help minimise the impact from new coronavirus variants.

This contingency plan, also known as an 'outbreak management plan', outlines how the school will operate if further restrictions are implemented. The school will work closely with the local health protection team (HPT) and implement provisions as advised by the team.

This is a live document that will be reviewed by the headteacher, in conjunction with other key stakeholders, as and when the situation develops.

Restrictions to attendance

The government has advised that all schools should continue to operate as normal and that all pupils should attend school unless required to self-isolate.

The contingency framework is designed to act as a containment measure where:

- There is extremely high prevalence of coronavirus.
- Other measures have already been implemented.
- There is a need to minimise the impact from a new coronavirus variant.

Restrictive attendance measures, of the kind set out in the contingency framework, must not be implemented by schools without the explicit agreement of the DfE.

Restricting attendance in any form will only be used as a last resort, initiated following a ministerial decision. Where restrictions to attendance are implemented following government advice, they will be kept to a minimum, allowing for the maximum number of pupils to attend education; however, in all circumstances, priority will be given to vulnerable pupils and the children of critical workers to attend full time.

As part of their outbreak management responsibilities, LAs, Directors of Public Health, and HPTs may advise individual settings or a cluster of closely linked settings to limit attendance in one of the ways described in this section.

Where LAs judge that wider containment action is needed and wish to limit attendance within an area, they will work with their Regional Partnership Team to escalate a proposal to the central Local Action Committee command structure.

School-based nurseries in infant and primary schools will have the discretion to follow the arrangements set for the infant or primary school.

Unless advised otherwise, the school will allow all pupils to attend. If the contingency framework is implemented, the school will only allow the following pupils to attend on-site provision:

- Vulnerable pupils
- Children of critical workers

High-quality remote education will be provided for all pupils not in attendance, in line with the Pupil Remote Learning Plan.

The school will lift restrictions as soon as it is advised by the government that it is appropriate to do so.

Infection prevention and control

Any member of the school community who displays symptoms of coronavirus will be required to self-isolate and get a confirmatory polymerase chain reaction (PCR) test. Tests can be booked online or ordered by telephone via NHS 119.

If a variant of coronavirus classed as a variant of concern (VoC) is identified within the school's geographical area, the school will partake in targeted testing by the Department of Health and Social Care (DHSC) to help suppress and control any possible new cases. The school will also adhere to advice from Directors of Public Health in relation to the temporary reintroduction of face coverings.

If a pupil develops symptoms of coronavirus while on site, they will be taken to a designated isolation area (disabled toilet) while they wait to be collected. The pupil will be supervised while they await collection. The supervising member of staff must wear PPE and ensure the window is open.

After the pupil has left the premises, any areas they were in will be cleaned. The pupil's parents will be encouraged to get their child tested with a confirmatory PCR test as soon as possible. The pupil will be required to self-isolate for at least 10 days – remote education will be arranged for them immediately.

If a staff member develops symptoms while on site, they will be directed to go home immediately to self-isolate and to get a PCR test. Cover arrangements will be put in place.

Any staff members or pupils who have been in close contact with a symptomatic individual at school will not need to self-isolate unless they develop symptoms themselves. From 16 August, fully vaccinated adults, and pupils under the age of 18 who have been identified as close contacts of a positive case via the NHS Test and Trace service will not need to self-isolate unless advised by a healthcare professional.

Adults who receive their second dose of the vaccine close to 16 August will need to continue to follow the same rules as unvaccinated adults until two weeks after their second dose. Unvaccinated adults and adults who have only had one dose of the vaccine will need to continue to follow the rules on self-isolation if they have been identified as a close contact of a positive case.

Those aged 18 will continue to follow the same rules as under-18s until four months after their 18th birthday, when they will begin to follow the self-isolation rules for adults.

If an individual tests positive, we encourage the parents to inform the school. Close contacts will be identified by NHS Test and Trace that they have been in close contact with a positive case and advised to take a PCR test. We strongly encourage all individuals to take a PCR test if advised to do so. There is no requirement to self-isolate while awaiting PCR test results unless they are displaying symptoms and so individuals can attend their setting as usual.

As the result of an outbreak during step 4 of the coronavirus recovery roadmap, a temporary requirement will be implemented for staff to resume wearing face coverings in communal areas. The school will also reintroduce the use of class bubbles in order to limit the transmission of coronavirus. The school will adhere to any conditions set out by the local HPT.

If a positive case is confirmed in our Preschool , we will notify Ofsted of any confirmed cases, within 14 days, be that a child or staff member, in the setting through the usual notification channels. We will also make Ofsted aware if the setting is advised to close as a result.

Transport

Pupils and staff attending school will be encouraged to walk or cycle wherever possible and to avoid public transport. If pupils and staff need to use public transport, they may be required to wear a face covering while travelling, unless exempt..

Teaching and learning

If restrictions to on-site education are required, the school will offer immediate access to high-quality remote education for all pupils who are required to remain at home. All remote learning will be delivered in line with the school's Pupil Remote Learning Plan.

Where advised during a local outbreak, further restrictions may be enforced with regards to certain musical and drama activities, e.g. singing, for pupils attending on-site provision, to help reduce the risk of transmitting coronavirus via aerosols. Restrictions may also be reintroduced to contact and indoor sports. The school will follow the advice provided by the local HPT.

The school will use a range of remote teaching methods to cater for all different learning styles. This includes:

- Learning grids
- Practical activities
- Videos
- Online Apps
- Nationally recognised resources

Teachers will ensure lessons are suitable to the class group's age and ability, inclusive for all pupils, and will be adapted, where necessary, to account for the needs of disadvantaged pupils and pupils with SEND. They will also take into account family circumstances including the work commitments of parents.

When teaching pupils who are working remotely, teachers will:

- Set tasks so that pupils have meaningful work which moves learning forward.
- Deliver a planned, coherent and well-sequenced curriculum which allows skills to be built incrementally.
- Provide frequent, clear explanations of new content through high-quality curriculum resources, including through educational videos.
- Through Class dojo portfolios assess progress by using questions and other suitable tasks and use assessment to ensure teaching is responsive to pupils' needs and addresses any critical gaps in pupils' knowledge.
- Provide opportunities for interactivity, e.g. story or games.
- Provide scaffolded practice and opportunities to apply new knowledge.
- Enable pupils to receive timely and frequent feedback on how to progress, using Class Dojo where appropriate.

- Plan a programme that is of equivalent length to the core teaching pupils would receive in school, including regular contact with teachers.

In exceptional circumstances, the school may reduce its curriculum offering to enable pupils to cope with the workload – the headteacher will assess this need, keeping pupils' best interests in mind, and will not take the decision lightly.

For any child that doesn't have access to technology the school will provide access to a laptop or provide paper-based activities.

Before distributing devices, the school will ensure:

- The devices are set up to access remote education.
- Appropriate safeguarding controls and support are in place to help pupils and their families use the devices safely.
- Arrangements follow the procedures outlined in the school's Loaning School Equipment Policy.

Once devices are ready for collection, the school will either arrange for them to be collected by families from school or delivered to pupils' homes, ensuring infection control measures are adhered to as part of this process.

Returning to school

The headteacher will work with the LA to ensure pupils only return to school when it is safe for them to do so. Prior to the return of more pupils and staff, all relevant risk assessments will be reviewed.

Where advised to do so by a Director of Public Health and/or the local HPT, the school may encourage staff to undertake LFD tests at home prior to their return to school and/or for a period of time following their return. The school will continue to recognise that testing is voluntary.

The headteacher will inform staff, pupils and parents, prior to the return to school, whether any further restrictions, such as the use of bubbles and face coverings, have been resumed.

After a period of self-isolation, or the relaxation of restrictions, the headteacher will inform parents when their child will return to school.

The headteacher will listen to all concerns that parents may have about their child returning to school and will advise them of the measures in place to ensure the safety of their child.

Safeguarding

Ensuring safeguarding arrangements remain effective during periods of restricted attendance is a key priority. Our Child Protection and Safeguarding Policy has been updated to include provisions for keeping pupils safe during the coronavirus pandemic, both at home and in school – we will continue to follow these procedures for pupils who remain at home, where appropriate, until all pupils are able to return to school.

We will continue to ensure that:

- The best interests of pupils always come first.
- If anyone in the school has a safeguarding concern about a pupil, they act immediately.
- A DSL or deputy DSL is always available.
- Unsuitable individuals are not permitted to work with pupils or come into contact with pupils whilst on site.
- Advice and support is given to parents to ensure pupils who remain at home are protected when they are online.

A trained DSL or deputy will remain on-site where possible. Where this is not possible, e.g. they are required to self-isolate, the school will ensure that the DSL or deputy, are available to contact at all times.

Wraparound care

The school's wraparound care (both indoor and outdoor provision) will be provided to all pupils; however, where restrictions are required, wraparound care will only be provided on-site to pupils who are eligible to attend school full time.

Food provision

We will provide meal options for all pupils who are attending school.

We will provide FSM to eligible pupils who are not attending school, where they:

- Are self-isolating.
- Have had symptoms or have tested positive.
- Are not attending due to the implementation of local restrictions advised by the government.

The school will provide supermarket vouchers for FSM children unable to attend due to Covid.

Communication

The school will communicate its plan for addressing any imposed restrictions with parents, including in relation to:

- Opening arrangements.
- Access for specific targeted groups where applicable, such as certain year groups, vulnerable pupils and children of critical workers.
- Any reviews of the school's protective measures as part of our risk assessments.
- The arrangements for remote working.

All relevant stakeholders will be kept up-to-date with the circumstances of any imposed restrictions and how these affect the school as the situation develops.

If any member of the school community wishes to discuss any concerns relating to the school's provision during this period, they should contact the following as appropriate:

- Staff – Headteacher
- Pupils – their class teacher

- Parents – Class teacher, SENDCO or the headteacher

Monitoring and review

This plan will be reviewed continually, by the headteacher, in line with guidance from the government and Public Health England (PHE).

Any changes to the plan will be communicated to all relevant stakeholders as soon as possible.
